Gary,

We'll make that happen. Thank you for clarifying.

Have a good weekend,

Austin.

Austin:

I would like the city areas that abut a property to be included for that property information for those properties that we did excavations on.

Thanks

Gary Moore

Gary,

Good morning,

It was a old map from early February I included for quick parcel reference.

Do you want us to include city owned nearby drainages and easements on excavated residential properties/LISD comfort letters or just on the City of Leonard letter?

Austin

Austin:

We don't need a comfort letter for (b) (6) since we did not excavate on their property and only in the city drainage.

Also, the proposed excavation map needs to be converted to an actual excavation map which should show all areas excavated, actual depth of excavation, and whether a liner was placed. Probably should have a table which shows the final confirmation results per grid/subgrid as it may have been.

Thanks

Gary Moore

Gary,

See attached for the property owner spreadsheet with associated parcels, grids, drainages, and easements.

We're going to use this table to begin drafting comfort letters soon.

I'll send you example draft comfort letters early next week so we can discuss them and determine how you'd like us to move forward with the letters.

Have a good evening,

Austin Lindsey
